G. W. HERVEY IN NORMANDY
Makes Trip on Horseback on Mission
for Army.

George W. Hervey, formerly assistant professor in the poultry department of the College of Agriculture, and now with the field artillery in France, has recently taken a trip on horseback through Normandy, according to a letter received here.

Mr. Hervey, in company with three Americans and a French guide, took the trip on a mission for the Army. He says Normandy is one of the most beautiful and interesting countries he ever saw.

"The person who wrote, 'It's Apple Blossom Time in Normandy' surely knew what he was talking about. Of course it is past apple blossom time but one can imagine what it would be then. I have often read about the country but it is far above my expectations."

CLEAR TRACK FOR DRAFT BILL
Senate Expected to Pass Measure To-day or Tomorrow.

By Associated Press.
WASHINGTON, Aug. 26.—A clear track was given in the Senate today to the Administration Man-Power Bill. It had been expected the Prohibition Bill would come up today, but when the Senate convened, Senator Shepard of Texas, a Prohibition leader, moved to set aside temporarily that measure and take up the Man-Power Bill, which was passed by the House Saturday.

Debate was begun on the Man-Power Bill and it is expected to be passed either late today or in the morning.

After attempting to modify the amendment whereby wives of soldiers and sailors would not be disqualified to work for the Government, the Senate let it pass without recording a vote on it.

The House passed the bill late Saturday.

WAR PROHIBITION LIKELY
President Wilson Not Opposed, Senate Leaders Say.

By Associated Press.
WASHINGTON, Aug. 26.—President Wilson, according to Senate prohibition leaders today, is not opposed to legislation pending in the Senate proposing prohibition during the war, but he has suggested that the proposed time for its becoming effective (January 1 next) be extended.

Negotiations are pending that seem to assure an agreement to pass the bill, and at the same time extend the time.

Later leaders said the prohibitionists favored making July 1, 1919, instead of January 1, 1919, the date when prohibition would become effective.

Although some opposition has developed, representatives of both sides said that it appeared probable that the July date would be accepted.

PRISONER PRINCESS
WILL WED GERMAN

Antoinette of Luxemburg Engaged to Rupprecht of Bavaria.

WAS ANTI-TEUTON
Girl Ruler Single-Handed
Defied Kaiser's Invading
Hosts.

By Associated Press.
COPENHAGEN, Aug. 26.—King Leopold of Bavaria, at a luncheon today, announced the engagement of the Crown Prince Rupprecht to the Princess Antoinette of Luxemburg, according to an official announcement made today in Munich.

Much interest is attached to the above announcement, as it is well-known that the Princess Antoinette has been strongly anti-German in her sentiments.

At the beginning of the war, when the Germans invaded her country, Princess Antoinette, having no army, directed her chauffeur to place her automobile crossways of the road in front of the Germans at the frontier.

The Germans, with unusual gentleness, seized the car and carried it to one side of the road.

Since that incident the Princess has been practically a prisoner. It is thought that diplomatic pressure has been brought to bear on the Princess, that Germany might add another province to her territory.

TEUTONS CALL DUCHY GERMAN
Luxemburg Has Been Under Heel of
Invader for Four Years.

By Associated Press.

AMSTERDAM, July 24 (by mail).—A recent semi-official statement published in Germany describing Luxemburg as a "German town" has attracted attention again to the bitter lot of the people of Luxemburg, whose princess vainly appealed to the Germans to spare her little country in the early days of the German incursion into Belgium.

For four years now, the citizens of Luxemburg have lived isolated under the yoke of German military domination. Three thousand Luxemburgers have escaped into France and joined the French army.

It is true that Luxemburg has not faced, as Belgium and Serbia have, the devastation wrought in defensive fighting on her own soil, but war has come by air, and just as it has been necessary for the Entente airmen to bomb German billets in Belgium and French towns, so they have frequently had occasion to bomb Luxemburg, and with deadly effect.

German propagandists in Luxemburg, as in Belgium, have constantly attempted to rouse hostility to the Entente by exploiting these air-raids, but their efforts have proved unsuccessful, and the people of Luxemburg persist, despite all propaganda in regard to the German invader as the real culprit, recognizing clearly that Luxemburg is raided only because the German army is there.

The Luxemburg Parliament and government have lodged protests at Berlin against the action of the German army in placing anti-aircraft guns around the city of Luxemburg.

TYPHOID TRACED TO MILK

Thirty Cases Were Supplied by One Dairy, Says Dr. Kampschmidt.

"The is no question but that the majority of the cases of typhoid in Columbia have come from the milk supply of one dairy," said Dr. A. W. Kampschmidt, chairman of the City Board of Health today.

"The city water is pure," he continued, "and there are just a few cases caused from cisterns and bad sewage. These last are in the outskirts of town, where the water and sewer mains do not run."

"I have a record of thirty cases whose milk supply came from this dairy. The dairy's milk supply is pure now."

Dr. Kampschmidt stated that he felt certain there were not more than forty cases of the fever in town, about ten of them developing from bad drainage and water.

It is his opinion that the cases appearing after the dairy was closed temporarily were infected previously. N. H. Hickman, city sanitation inspector, said late today a 14-room house on Seventh street near Elm street had been rented and would be turned into an emergency hospital as soon as it could be furnished.

Doctor Kampschmidt said this project had not been acted on by the Board of Health. Mr. Hickman said the matter was being carried on under direction of Mayor J. E. Boggs.

LONDON, Aug. 26 (1 p. m.).—This morning's attack was launched between the Scarpe River at Fampoux and the heights northeast of Neuville-Vitasse.

In a few hours the British made an advance of two miles on a front of four miles, according to dispatches reaching here from the battle front.

In the battle area south of the Somme, General Debeny's French army has captured Fresnoy-le-Roye, about three miles north of Roye, according to today's dispatch.

General Mangin's army also has made a slight advance between the Ailette and the Aisne rivers. Four hundred prisoners were taken by this army yesterday.

By Associated Press.

LONDON, Aug. 26.—British troops attacked this morning in the Scarpe sector east of Arras, and good progress is being made, according to the official statement issued today by the War Office.

Favreuil, one and one-half miles northeast of Bapaume has been captured and the British have advanced beyond the village, statement says.

The British lines have been advanced slightly astride the Somme and progress has been made in the direction of Maricourt, four miles northeast of Bray, the statement adds.

By Associated Press.

WITH THE BRITISH FORCES IN FRANCE, Aug. 26.—British troops in their new drive on the Arras front this morning are reported to have entered Monchy-le-Preux and to have captured the Orange Hills.

North of Bapaume the Germans have been driven further back.

The Germans are making great efforts to hold Bapaume but the town is gradually being surrounded.

Everywhere the German line is reported to have been beaten in as the British troops rush forward.

With the customary "crash" the British went over at 3 o'clock this morning. South of Bapaume the Germans launched a heavy counter-attack. The British let it advance almost to their trenches and then met it with the point of the bayonet. Many more prisoners, heavy and light guns have been taken by the British.

By Associated Press.

LONDON, Aug. 26.—The British Third and Fourth armies have suffered in casualties, 23,500, between Aug. 21 and 25, according to advices from the front.

GERMANY IS SHORT OF MEN
Is Not Planning Any More Offensive
Says Prisoner of Americans.

By Associated Press.

WITH THE AMERICAN ARMY ON THE VESLE, Aug. 25 (Sunday).—German soldiers believe Germany is not planning any more offensives because of the man-power shortage, according to one of a party of seven in a German patrol, captured by the Americans early Sunday east of Fismes. The soldier formerly was a bank employe and owner of a Berlin restaurant. He said that the soldiers had no enthusiasm for the war.

The prisoner has been fighting for three years and was tired of it. He said he understood that German losses in the recent Allied offensive had been very great. He knew of one division of 15,000 men, which was reduced to less than 1,000.

Plenty of Germans, he added, were desperate and would surrender if given the opportunity. Many were constantly watching for a chance to surrender to the Americans.

The Germans have plenty of ammunition, but the man-power question and the entry of American troops into the war was worrying the military leaders, the prisoner said.
